District Advancement Plan: Family Engagement

This year, one of the District's goals is to further explore ways to partner with families and the community. Last week, both schools opened their doors and invited families to visit their child's school. Hebron Elementary School's Open House took place on Tuesday May 10th. The following night, Gilead Hill School held their Family Engagement Night. Families participated in arts and crafts, toured an art show, visited classrooms, and met with teachers and staff. Many of the district's families were able to attend. Both nights were a big success!
