

Inspiring all children to be resilient, confident, respectful, and prepared to discover and follow their dreams!

Volume 4, Issue 2 10/3/2022

Spotlight On: Global K-2 Invention Convention Winner Rachel Smith

Hebron Public Schools is very excited to announce that our own Rachel Smith won first prize in the K-2 Category in the Global Invention Convention Competition. Rachel also won the competition's top prize, the Most Innovative Award! Rachel created the Remember It Bracelet which helps people remember things they need to do. Each charm can serve as a reminder of something that needs to get done, and when a task is completed the charm can be turned over. A big congratulations to Rachel, we are so proud of you!

District Advancement Plan: Physical Education Curriculum

Our PE Curriculum Committee has been very busy this summer working on Hebron Public School's Physical Education Curriculum. This summer the committee developed a PE Mission and Vision statement, audited all current curriculum, refreshed the 10-month pacing guide, began the development of a comprehensive digital PE curriculum and established next steps and implications. You can view the full [Fall 2022 PE curriculum update here](#).
