

2021-2022 State Assessment Results

Presentation to the Hebron Board of Education

(Presented on October 13, 2022)

Overview

- Smarter Balanced (SBAC) Overview
- 2021-2022 student outcomes
 - ELA
 - Mathematics
 - Science
- Action Steps
- Questions/Discussion

Smarter Balanced

WHO, WHAT, WHEN

• WHO

- ALL 3rd, 4th, 5th, 6th graders

• WHAT

- Computer Adaptive Test (CAT)
- Online statewide mandated assessment
- Summative
- Mathematics, English Language Arts, and Science (5th grade only)
- Provides achievement and growth information to inform educational decisions

• WHEN

- CSDE prescribed testing window (last 9 weeks of school)

State Summative Assessments

Not Useful As:

- A **sole measure** of student achievement, program evaluation or school, district, and state accountability systems
- The **sole source** of guidance for curriculum or instruction.
- A **substitute** for a wide variety of other relevant ways to assess student learning, such as:
 - ❖ classroom assessments
 - ❖ teacher observations
 - ❖ student work portfolios
 - ❖ universal screening
 - ❖ frequent progress monitoring
 - ❖ detailed diagnostic assessment or evaluation

What are the SBAC Achievement Levels?

- Established "**Cut Scores**"
- Based on student sampling
- Based on **4 Levels**
 - **Exceeds** the Achievement Level (4)
 - **Meets** the Achievement Level (3)
 - **Approaching** the Achievement Level (2)
 - **Does Not Meet** the Achievement Level (1)
- Identifies **Knowledge** and **Skills** at each level
- Should only serve as a **Baseline** for conversation
- Students **Level 3 or Above** meet state expectations

Outcomes

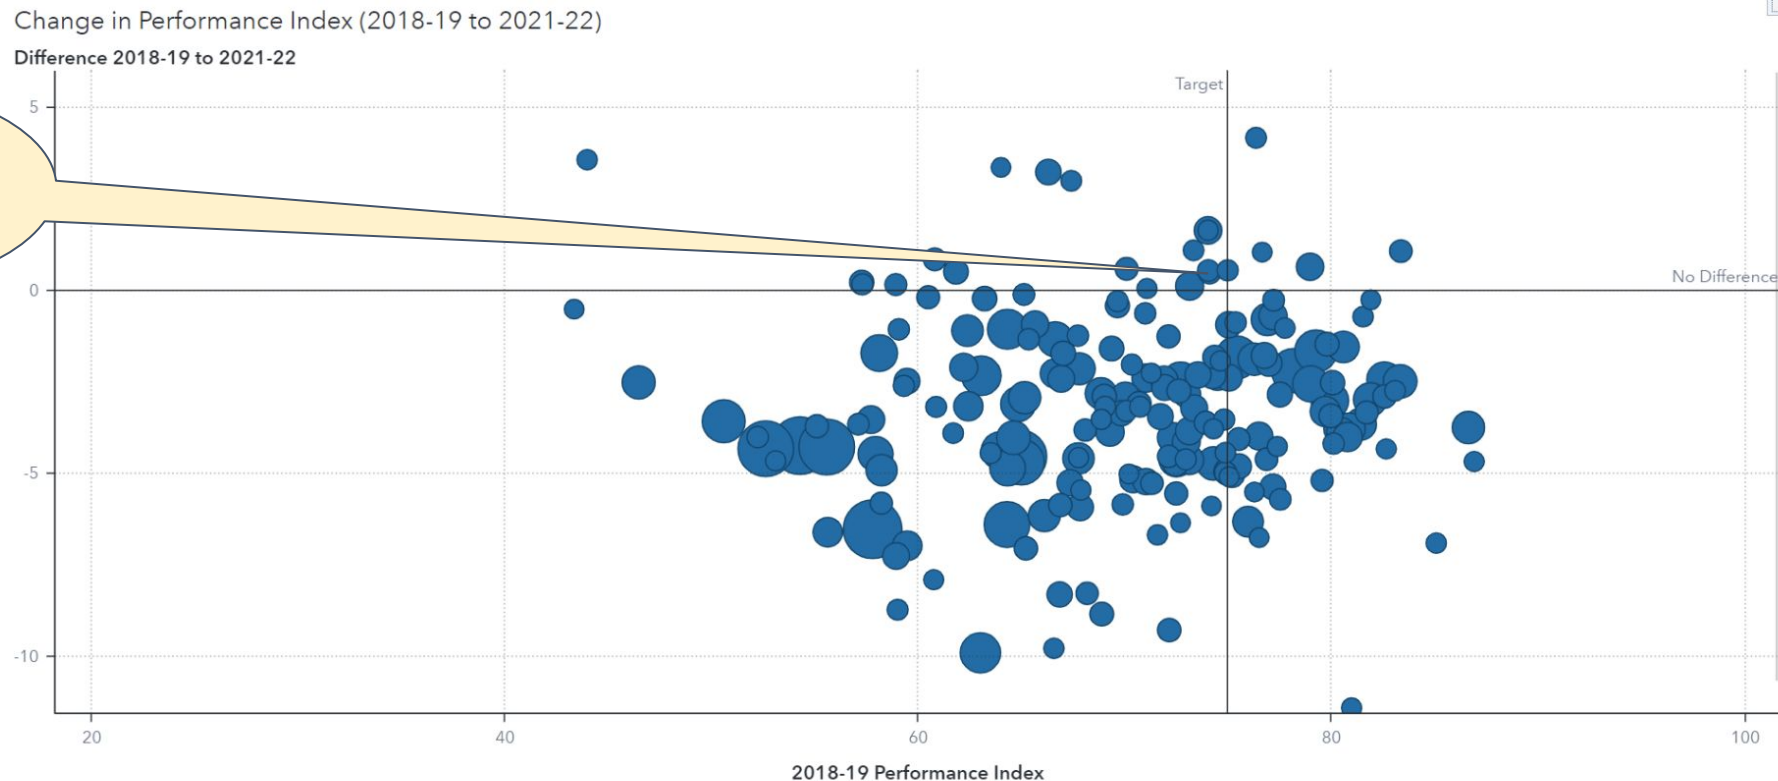

Statewide Takeaways

- Some signs of learning acceleration and recovery; overall achievement still lags behind pre-pandemic levels
 - Overall growth rate was faster in 2021-2022 in elementary grades and in most grades in mathematics.
- The pandemic has had a widespread impact on student achievement
 - Performance Index changes translate to approximately 6-8% decline in proficiency for English Language Arts and approximately a 4% decline in Mathematics.
- It is estimated that students in grades 4 and 5 may be 2-3 months behind their expected performance; 5-7 months in grade 6.
- It is estimated that students may be more than a year behind in mathematics statewide.

English Language Arts Pandemic Recovery Dashboard

What is the Pandemic Recovery Dashboard?

- A new state report that compares how overall student achievement (SBAC; NGSS) has changed from 2018-2019 to 2021-2022 using a scatter plot graph.
- The horizontal X-Axis shows 2018-2019 Achievement
- The vertical Y-Axis shows the difference in achievement from 18-19' to 21-22'
- If difference is greater than zero, achievement exceeds pre-pandemic levels
- If difference is less than zero, achievement lags pre-pandemic levels

Hebron
18-19' PI: 74.1
21-22' PI: 74.6
Difference: +0.5

Hebron Takeaways

- Overall reading and mathematics remained stable
 - Tutoring support aided an additional 56 students last year in reading and math.
- Grade 3 performed well in Reading and Mathematics
 - Grant funding was used proactively to allow for smaller class size when we had reopened last year. Tutoring support was also provided.
- Grade 6 declined in ELA performance; math demonstrated cohort growth
 - We are implementing a new math curriculum and increasing instructional coaching and professional development in 6th grade. Structural changes have also occurred to increase instructional time.
- Overall significant improvement in science performance (10 point or 22% improvement).

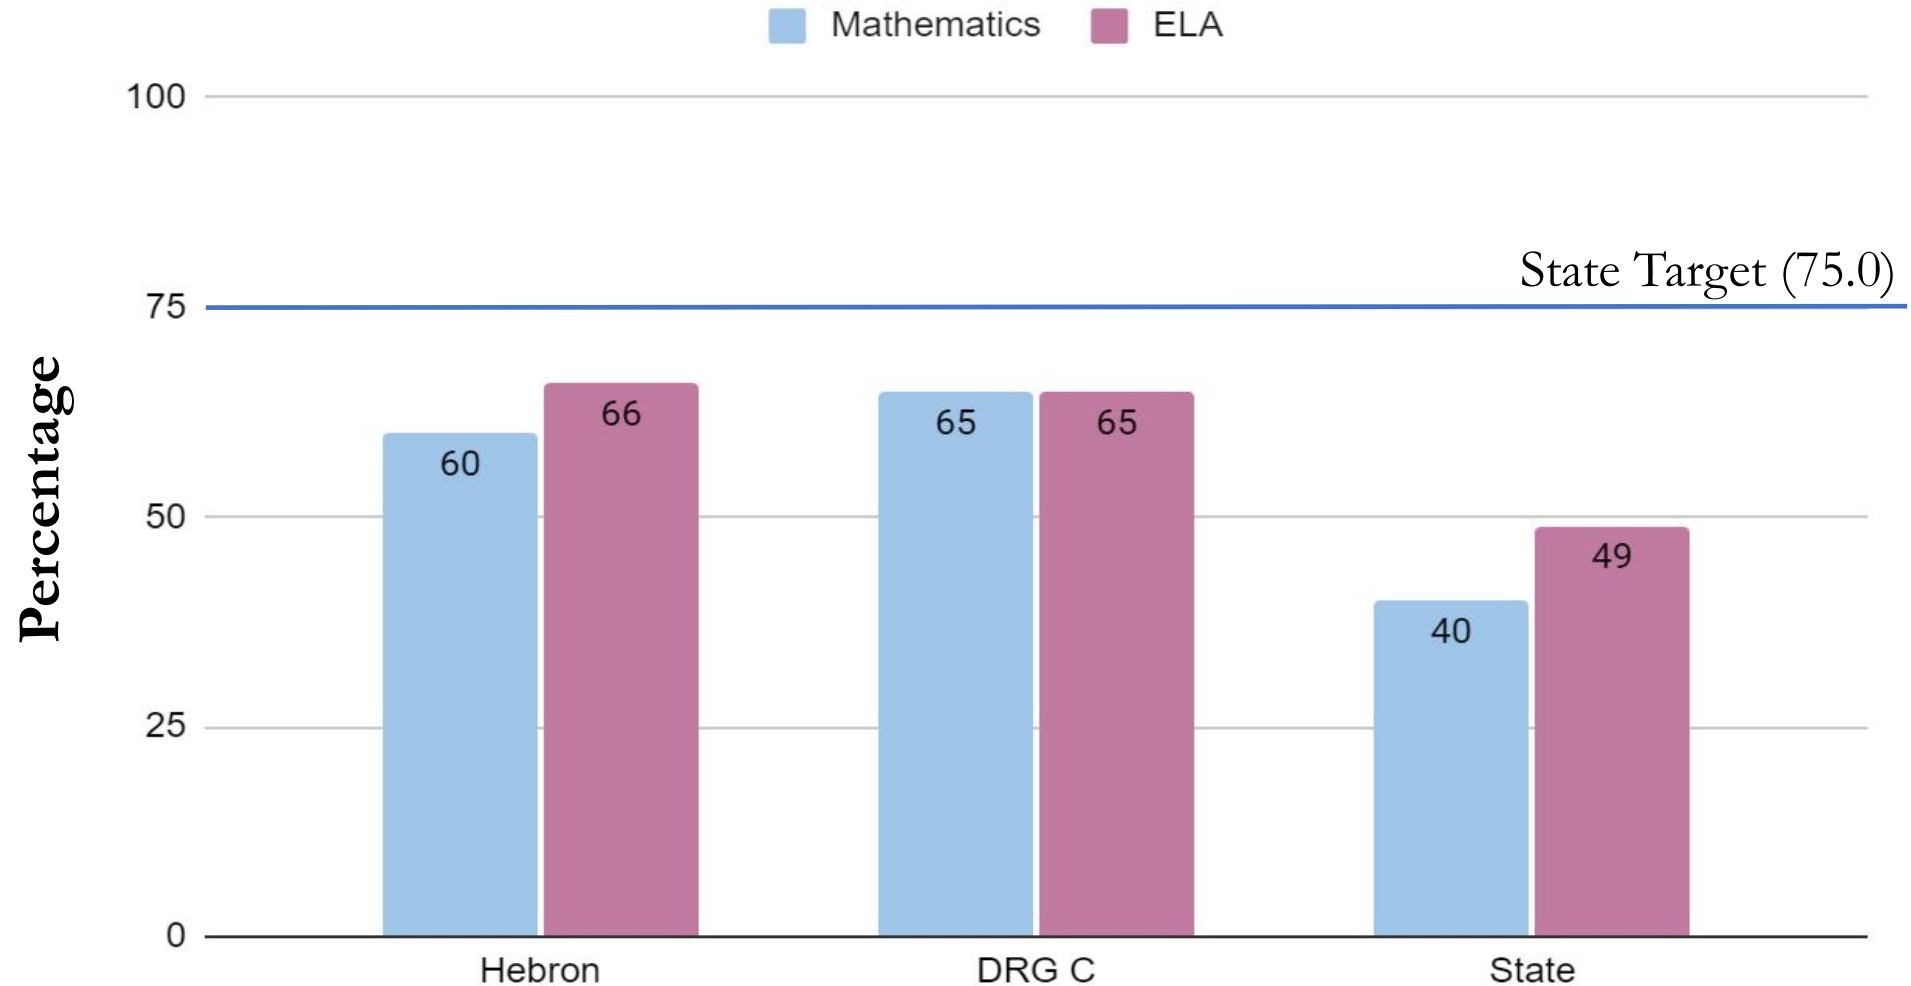

Districts in DRG C

Andover	Hebron	RSD 13

Action Plan

In Progress:

- **Data:**

- Bi-weekly student achievement team meetings focused on review and analysis of data.
- Pilot of student data platform (iON), grade 4.
- Ongoing progress monitoring of students receiving tiered supports

- **Systems:**

- Full implementation of **targeted supports** for students receiving tiered interventions (i.e., SRBI and tutoring)
 - Additional tutor hired in 22-23
- Revised Grade 6 Structure

- **Practices:**

- Continued full implementation of **Bridges** including Number Corner grades 3-5.
- Year 2 Implementation of **Illustrative Math** in grade 6.
- Continued affiliation with **Teachers' College Readers and Writers** project with embedded professional development.

-Monitoring the pacing of our Units of Study in both ELA and Math
