Spotlight On: The Little Mermaid Jr.

This year members of the 6th grade class performed in the musical *The Little Mermaid Jr.* The play was performed for all of the HES students on May 4th and for friends and families the evening of May 5th. We are so proud of the cast and crew and how hard they worked to put on an amazing performance! Special thanks to Miss Gee and all the staff members for their dedication to the musical and students.

Spotlight On: Future Problem Solvers

Congratulations to our 6th grade Future Problem Solvers (FPS) on winning the State championship for a second year in a row! FPS is one element of Hebron Elementary School's Challenge & Enrichment program. The FPS program brings essential problem solving skills to students in 4th to 12th grade. The program offers a variety of options to prepare students for the future, Global Issues Team Problem Solving, Community Problem Solving, Art, Scenario Performance and Scenario Writing. As state champions, they have received an invite to FPS Internationals at UMass-Amherst. Congratulations to Elizabeth Thibeault, Avery Holzer, Maisey LeMay, and Ben Cyr!
