

Spotlight On: 2nd Grade Field Trip to the Hebron Harvest Fair

The second-grade field trip to the Hebron Harvest Fair was an unforgettable adventure for our young students. The highlight of the trip was definitely the moment they had the chance to feed marshmallows to the pigs! The students also watched a pig race and visited historical exhibits. Thank you to the Lions Club for hosting our 2nd graders!

District Advancement Plan: Culture, Climate, and Wellness Updates

The District Advancement Plan serves as a guide in future decision-making to achieve the mission, vision, and goals we developed for the district. Each month we present specific updates and outcomes of the plan at our Board of Education meetings. We then share these presentations with you in Bright Futures. This month we focused on our culture, climate and wellness. Please find [the presentation here](#) for highlights ranging from our climate surveys, attendance trends, and physical education assessment outcomes.
